

AERONAUTICAL INFORMATION MANAGEMENT

AIM VISION

The dynamic integrated management of high-quality digital aeronautical data in collaboration with all stakeholders.

AIM MISSION

To provide accurate, reliable, and timely aeronautical information and data that supports safe, efficient, and sustainable air navigation, enabling seamless collaboration and informed decision-making among all stakeholders.

AIM VALUES

Safety:

We prioritize the safety of air navigation and the well-being of all users.

Excellence:

We strive for excellence in our services, products, and customer support.

Innovation:

We embrace innovation and collaboration to stay ahead of evolving aviation needs.

Reliability:

We ensure the accuracy, integrity, and availability of aeronautical information.

Customer-centric:

We put our customers first, understanding their needs and exceeding their expectations.

Collaboration:

We work together with the stakeholders to achieve common goals.

Integrity:

We operate with transparency, accountability, and ethical standards.
